

Health care is a basic human right essential to human dignity.

Medicaid makes it possible.

The Catholic Health Association of the United States is committed to ensuring our nation's Medicaid program remains viable, efficient and effective for low-income and vulnerable individuals.

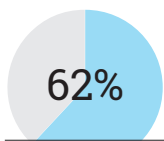

Medicaid makes it possible for children, the elderly, individuals with disabilities, veterans and working families from across the United States to access high-quality, affordable health care services.

MEDICAID MAKES IT POSSIBLE FOR

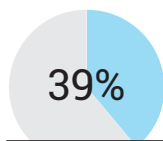

1 IN 5 Americans

including many with complex medical needs to access affordable health coverage.

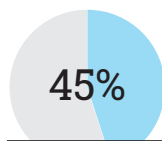

BY THE NUMBERS

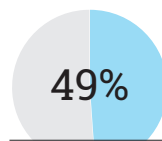

of nursing home residents have Medicaid

of American children have Medicaid

of non-elderly disabled Americans have Medicaid

of all births in America are covered by Medicaid

Medicaid makes it possible.

Medicaid coverage during childhood is associated with:

REDUCED disability

LOWER RATES of hospitalization and emergency department visits in later life.

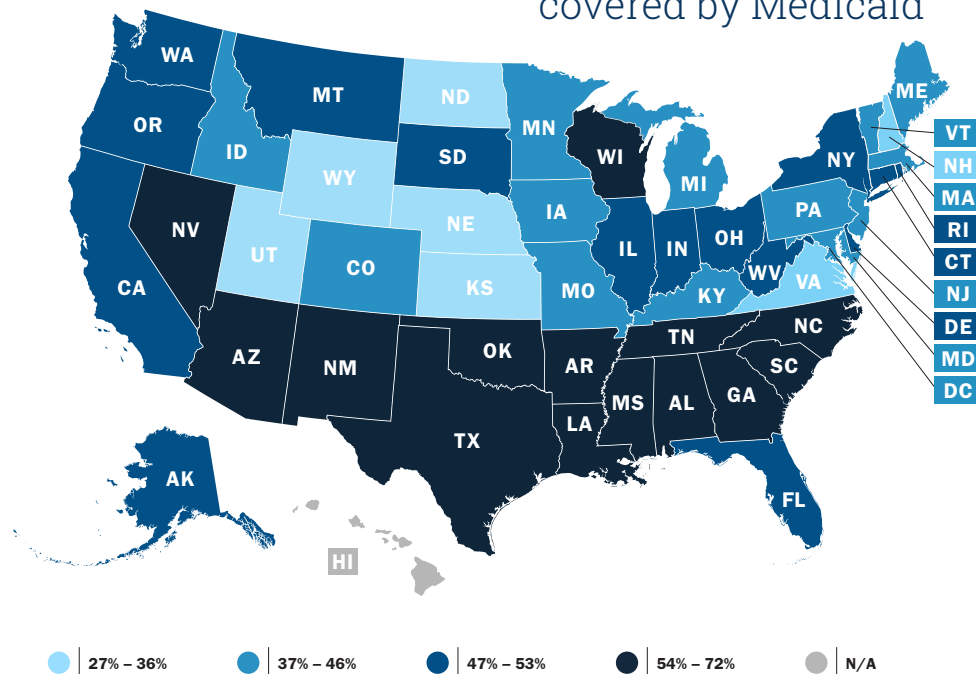

REDUCED teen mortality

IMPROVED long-run educational attainment

LET'S RAISE A NATIONAL VOICE FOR #MEDICAIDPOSSIBLE

49% of all births in the United States are covered by Medicaid

Research finds that state Medicaid expansions are associated with:

- ↑ INCREASED access to care
- ↑ IMPROVED self-reported health
- ↓ REDUCED mortality among adults

Medicaid makes it possible.
