Understanding the foundations of Catholic health care ministry is an essential competency for today’s leaders. Executives, board members, directors, managers, supervisors, clinicians and others who work in Catholic health settings are leaders of a ministry. For this reason, an understanding of the Church’s theological roots, social justice tradition and ethical framework is essential.

The Foundations of Catholic Health Care Leadership Program is used as a primer for new leaders. Thousands of leaders have attended this program for more than two decades through their system or CHA’s in-person or online format. This program simply is a “must have” for all leaders in Catholic health care.

The online course is organized into six sessions lasting up to two hours each. Each session will include up to two presentations, as well as opportunities for interaction via online chat, voice contact and electronic small group discussions.

**SESSION TOPICS INCLUDE:**

- Jesus, the Foundation of Catholic Health Care
- Health Care as a Ministry of the Church
- International Outreach as an Important Part of Our Mission
- Understanding the *Ethical and Religious Directives for Catholic Health Care Services*
- Community Benefit as a Foundational Element of Catholic Health Care
- Catholic Social Teaching and Ethical Decision Making
- Catholic Health Care Ministry — Current Realities
- Challenges of Leadership in Catholic Health Care

Foundations of Catholic Health Care Leadership

An Online Course for Formation & Development

SIX CONSECUTIVE FRIDAYS | FEBRUARY 13 – MARCH 20, 2015 | 1:00 – 3:00 PM ET

“I appreciated the diversity of the learning tools, the expertise of the speakers who participated in this program, the reference materials we have for continued learning, and the opportunities to speak with and hear from others in Catholic health care leadership. This is a great program for anyone in Catholic health care.”
