Leaders in Catholic health care have come to recognize the crucial importance of formation in ensuring the Catholic identity of our ministries. Formation enables all those who serve in Catholic Health Care to embody and express our identity as a ministry.

In response to member needs, the Catholic Health Association is committed to expanding opportunities for ministry formation and serving as a catalyst to strengthen the Catholic identity of CHA member organizations in carrying out the healing mission of the Catholic Church in the world today.

SR. MARY HADDAD, RSM

President and Chief Executive Officer

Catholic Health Association of the United States

Ministry formation creates experiences that invite those who serve in Catholic health care to discover connections between personal meaning and organizational purpose. These connections inspire and enable participants to articulate, integrate, and implement the foundational elements of Catholic health ministry so that it flourishes now and into the future.
