Educational Resources on the Genetic Information Nondiscrimination Act (GINA)

These resources for health care professionals can be found at <http://www.nchpeg.org>. They include background documents, a discussion guide suggesting when and how to talk about GINA with patients, a teaching slide set, and case studies that describe how the law works in a variety of real-world clinical settings. The website is for the National Coalition for Health Professional Education in Genetics.

Public-oriented materials can be found at <http://www.GINAHelp.org>

Research Integrity DVD

The Department of Health and Human Services Office of Research Integrity (DHHS-ORI) has developed an interactive educational DVD for ethics/integrity education regarding research misconduct. The full film will be available soon. Below you will find the DHHS website to view the trailer.

<http://ori.hhs.gov/TheLab>

Other sections of the DHHS-ORI website contain additional educational resources, information, and opportunities.
