Research Ethics

The Clinical and Translational Science Award (CTSA) Consortium has created a searchable online inventory of materials that may be used in education and training in the responsible conduct of research (RCR). These materials are freely accessible to all, and are intended to assist those who provide education and training in RCR within the United States and abroad. Please visit the inventory website at <http://twiki.library.ucsf.edu/do/view/ResearchEthics/WebHome> to review the materials.
