Finding God in Daily Life

“Nurses have historically played a central role in health care. Every day, in their contact with the sick, they experience the trauma caused by suffering in people’s lives. They are men and women who have chosen to say ‘yes’ to a very special vocation: that of being good Samaritans who are concerned for the life and suffering of others. They are guardians and preservers of life, who, even as they administer necessary treatments, offer courage, hope and trust.”
