6	More information about this topic would be very helpful. I feel as though Dr. Chambers had much more to share and could only scratch the surface due to time constraints.	1/19/2018 6:26 AM
7	The suggestion of a follow-up to this session was great -- I would definitely want to attend such a program. In addition, I wonder if it might help to have a panel discussion about how medical facilities could work cooperatively with local law enforcement and other agencies in the community to address the long-term recovery issues. It is sad to hear how often victims end up getting trafficked again because of the threats to their family. It seems that larger cooperation is needed to fully establish "safe havens" beyond the medical setting.	1/18/2018 11:45 AM
