CHRISTUS Names
New Spohn Market President

(Corpus Christi, Texas) – CHRISTUS Health names Justin Doss, FACHE, as the new Market President of CHRISTUS Spohn Health System.

Doss will oversee the Health System’s expansive network, including six hospitals, a network of family health centers, a nationally recognized cancer program, medical residency programs and a host of community outreach programs.

For the past year, Doss has served CHRISTUS Spohn as Chief Operating Officer, providing leadership and oversight of operations for each of its hospitals covering Corpus Christi, Alice, Beeville and Kingsville.

During that time, the Health System has expanded under its $335 million master facility project, including the opening of the new Dr. Hector P. Garcia Memorial Family Health Center, the addition of a new medical intensive care unit to the Shoreline campus and 27 beds to the Pavilion’s 9th floor, expansion of the cancer program to include Kingsville, the acquisition of the da Vinci Xi Surgical Robotic System, and a new cardiology affiliation with the University of Texas Health Science Center at Houston.

“In the past year, I have witnessed the dedication and talent that extends throughout the CHRISTUS Spohn team,” Doss said. “It’s an honor to be a part of this family that is so focused on care and service for all the people of Corpus Christi and the Coastal Bend.”

In his new role, Doss will provide leadership for strategic operations of the faith-based, not-for-profit health system which serves a 12-county region. CHRISTUS Spohn offers a mix of tertiary, trauma and rural facilities with key service lines including cardiac, cancer, neuroscience, rehabilitation, behavioral medicine and women’s health.

“Justin jumped in a year ago and has done an outstanding job of day-to-day leadership of CHRISTUS Spohn, building important relationships and supervising the master facility project construction while maintaining quality care for our patients as the top priority,” said Dominic Dominguez, Senior Vice President of CHRISTUS Health and CEO of the South Texas Group. “We are grateful he has agreed to take on the CEO role for CHRISTUS Spohn. He will be a wonderful asset for this community.”

In the past year, CHRISTUS Spohn has received several major awards under Doss’ watch, including the National Research Corporation’s Consumer Choice Award for Shoreline and South, the Press Ganey Award of Excellence for South and, most recently, the Owner of the Year Award from “Engineering News Record” magazine.
As CHRISTUS Spohn Health System continues its transformation project, called Our PATH Forward, Doss will continue to oversee key decisions to finalize construction at Shoreline, which will provide a new 10-story Patient Care Tower, Level II Trauma Center, Residency Program and more.

“This is a pivotal time for CHRISTUS Spohn,” Doss said. “I'm proud to help lead this wonderful health system as we transform care in the Coastal Bend for the next 100 years.”

Doss brings a wealth of diverse management experience to CHRISTUS Spohn. His most recent role was Chief Operating Officer for both the Medical Center of Plano and Medical City Frisco hospitals. His responsibilities there included the oversight of dual campuses, where he increased volumes, patient satisfaction and physician engagement.

Past roles have included serving as Chief Operating Officer and Administrator at several hospitals throughout Texas and Florida. A native of Belton, Texas he is a graduate of Texas A&M University and received his MBA from the University of Texas at San Antonio. Doss is a Fellow of the American College of Health Care Executives. He and his wife, Amy, have three children.
