SOS Signs of Suicide Prevention Program

- * SOS is the only universal school-based suicide prevention program for which a reduction in self-reported suicide attempts has been documented. Students who receive SOS report:
- Greater knowledge and more adaptive attitudes about depression and suicide
- * 64% fewer suicide attempts among intervention youths relative to untreated controls
- Decrease in suicide planning for "high risk participants" (those who reported a lifetime history of suicide attempt)

SOS Goal: Prevent Youth Suicide

- * Increase knowledge and adaptive attitudes about depression
- * Encourage individual help-seeking and help-seeking on behalf of a friend
- Reduce stigma: mental illness, like physical illness, requires treatment
- Engage parents and school staff as partners in prevention
 Encourage schools to develop community-based
 partnerships
