

## **Healthcare Risk Management Week**

*The American Society for Health Care Risk Management celebrates Healthcare Risk Management Week the third full week in June.*

Protecting Lord,  
our lives are full of moments of uncertainty and fear.  
Troubles come our way unbidden, no matter how we try to avoid them.  
This is true too of our healthcare ministry.  
We confront many challenges and possible risks as we strive to care for those in need.

Lord, sustain in particular our healthcare risk managers.  
They have the difficult task of anticipating and responding to threats  
to the strength and vitality of our healthcare organizations.  
Bless their work to protect the future of your healing ways  
through the ministry of our healthcare family.  
We ask this in your holy and blessed name.  
Amen.
