

Medical Staff Services Awareness Week

Medical Staff Services Awareness Week is annually observed the first full week of November.

Ever-caring God,
this healthcare ministry requires so many hands and hearts
for our patients to be able to heal and flourish.
Those hands and hearts include our Medical Staff,
whom we wish to honor and thank in a particular way this week.

Strengthen our Medical Staff colleagues, O Lord,
and give them the full assurance that what they do
they do in your holy and blessed name.
Their care helps to ensure the safety and quality of our services
and the wellbeing of all who come to us in their time of need.
Bless them in every way.
Make their labor fruitful and a sign of your very own care for all of us.

We ask this with trust in your unceasing care,
God forever and ever.
Amen.
